VPN Zugriff FH Graubünden (MacOS)

1. Download the file «ps-pulse-mac-installer.dmg» vom the intranet Link:

https://my.fhgr.ch/download/18236

2. Open the downloaded file and start «PulseSecure.pkg» for the installation process.

3. Proceed the installation process with all default settings. During the installation process a pop-up message will appear where you have to enter your mac password.

• •		<u> </u>) B
		Installationspro installieren.	nstallationsprogramm versucht, neue Software zu nstallieren.			
	Finführ	Gib dein Passwort	ein, um dies zu er	lauben.		
		Benutzername:	<u> </u> /
